

# Workers' Compensation

On-demand Reporting

## Make Your Annual Premium Audit Easier!

Easily produce worker's compensation insurance reports that provide a detailed description of actual paid wages, operations, and classification code for each employee. Easily run the company summary.

Having visibility on this crucial information can help you to actively control your insurance costs this year and every year.

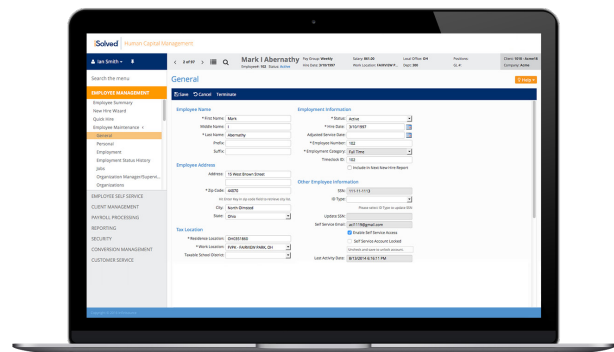

Current and relevant, the help you need is all in one place.

## Minimize the hassle of gathering employee information for reporting!

Even Quarterly Federal Tax Returns (941s), state unemployment forms, and payroll journals are easy to produce.

PPI Business Services offers cost-effective ways to manage your workers' compensation insurance needs.
